

Carrie Marie Foust

June 10, 1979 - January 4, 2022

After a five and a half year battle with cervical cancer, Carrie Marie Foust died on January 4th, 2022 in Dublin, Ohio at the age of 42. She was surrounded by her beloved daughters when she peacefully passed.

Carrie was born on June 10th, 1979 in Springfield, Ohio. She graduated from Mechanicsburg High School and attended the nursing program at Clark State. While attending college and working part-time as a waitress, Carrie fell in love with Justin Foust at the Der Dutchman. They married and started their family in Plain City.

Carrie was a tiny woman who was full of fire. She was passionate about the things she loved. She was determined and positive through her battle with cancer. Carrie made even the most mundane activities fun- everything from long days at the softball field to late night fast food runs (specifically Wendy's). She shared a love for marching band with her youngest daughter and attended every performance she could. She left her daughters with a deep appreciation for Beyoncé and The Grateful Dead.

Carrie is preceded in death by her grandparents Maria and John Martycz, who she deeply adored.

Carrie leaves behind three daughters, Taylor (Stephen) Kellett, Jenna (Levi) Foust, and Ellie Foust; two grandchildren Liam and Thea, her great-aunt Anne Martycz and her beloved dog, Zeke.

The family would especially like to thank the staff of The James and Dublin Methodist for their constant, attentive treatment and deep love for their patients.

In lieu of flowers, donations can be made to The James Center Research Institute-Gynecological Oncology Research Fund.
