“ *The West Family will always remember Kathy and her big love for Kenzie Bug. Her shirts always came thru at each vendor show I had and people absolutely adored them. I have sent many people her & Big Steve's way for personalized items. Kathy always was making big plans for life, making sure family was involved. Go fo your thing in the sky 🙏*

“ I was introduced to Kathy from my husband, Dakota. Over the years we have had a lot and I mean a lot of things made by Steve and Kathy. We would often talk via messenger, whether it be about things going on in the world, things going on locally, a fundraiser that Spencer’s school was doing or an order that we had for her to bring to life.

She had the biggest and sweetest heart of just about anyone I have ever met. In December 2023, I had lost my best friend, which was my maternal grandmother (who also had a lot of things made by Kathy). When I got back to Ohio, after the services and things for Grandma, I was at work and had something dropped off. The attached picture shows the item that Kathy made and Steve delivered. I will forever cherish this item for multiple reasons now.

My heart continues to break for her family. I hope her family knows just how much she loved and bragged about each of them. I can only hope that when Kathy entered heaven, my grandmother was there for her.

“ I never met her personally. We met at farmville a online game. We shared things we earned and then we started to follow each other on Facebook. I saw Steven Jun. and funny little Spencer grow up. I adored Kathy for her way to handle her life, her illness, her big love for her family and her big heart for friends. She went with me through my divorce, was happy when I met my husband Martin, the wedding of my daugther, the birth of my grandchildren, Ava and Liart and we celebrated Carly and Stevies wedding. She was a sister by heart and there will be a gap for the rest of my life. We'll meet on the other side of the rainbow bridge. Love you and I 'm with your beloved in grief. R.I.P.
