“ I am sorry that I just found this. Back in 2009 I just started working in Pulmonary Rehab and found Michael's YouTube videos. I contacted him to see if he had them on a dvd that I could purchase. He quickly responded that he didn't but he would see if he could. Shortly there after I received a dvd containing 8 of his YouTube videos. He wouldn't take any payment for it. So I sent him a gift card and a poem that I had written to thank him for his generosity. I am now retired but we played that dvd for every new group of patients at least once during their group of rehab sessions. It made a huge impression with our patients because he lived their life. And they did appreciate the cat's appearance in several of them.

“ I was sorry to learn of Michael's passing in 2018. My sympathies to those who knew and loved him. Our pulmonary rehab program in VT is working to assemble educational materials online for our patients who are staying at home for obvious reasons during the COVID-19 pandemic. Sharing with them Michael's heartfelt YouTube videos is a fitting and up-lifting tribute to his life and legacy.
